ProjectReady®
Program Management

NUMEROUS PROJECTS & MULTIPLE AUTODESK INSTANCES, BOUND TOGETHER WITHIN A SINGLE PROGRAM

ProjectReady's Program Management allows users to synchronize and centralize content and information across **multiple instances of Autodesk Build, BIM 360, PlanGrid, and Procore**.

Keep all project team members and stakeholders on the same page and in possession of a single source of truth that persist across the multiple projects in play within the program.
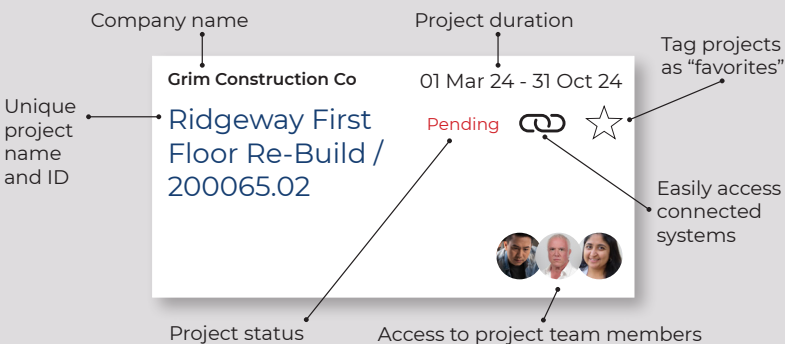

WHAT'S POSSIBLE WITH PROGRAM MANAGEMENT

- **Synchronize** content across multiple instances of Autodesk and Procore.

- **Centralize** reporting across the multiple projects within a program.

- **Monitor** the status of RFIs, Submittals, Change Orders, and more across grouped projects.

- **Associate** vital project management information to the program level.
