ProjectReady®

WorkBridge
Bridging Systems so People Can Work Together

Building on **WorkBridge Sync**
And Introducing **WorkBridge Transfer**

WorkBridge Sync

Our WorkBridge Sync feature set already has great features syncing in Realtime:

Procore & Autodesk RFI's

Content Across Multiple ACC Hubs

Content Across Platforms - ACC, Procore & SharePoint

Procore to Procore
Documents, RFI's Submittals, Issues*, Photos* & Forms*
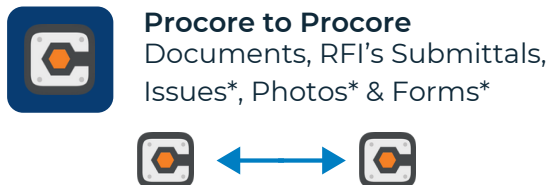

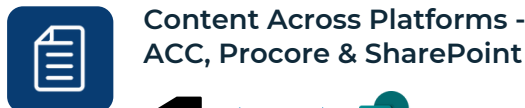

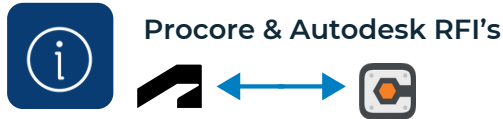

WorkBridge Transfer

We are proud to announce the release of our newest product WorkBridge Transfer for release in Q1 of 2025.

With WorkBridge Transfer you can push content and workflows, between the Autodesk Construction Cloud and Procore and between multiple ACC Hubs and Procore Companies.

- ✓ **Submittals**
- ✓ **RFI's**
- ✓ **Issues**
- ✓ **Photos**
- ✓ **Forms**
- ✓ **Documents**

Run WorkBridge Transfer at the end of the project, schedule a daily delivery of workflows and content to other stakeholders and their systems, or use WorkBridge Transfer to migrate all your projects historical information from either Procore to ACC or ACC to Procore.
Designed with the end-user in mind this powerful tool is easy and intuitive, like everything ProjectReady brings to our clients.

ProjectReady®

You Don't Need Another Silo. You Need ProjectReady Driving Process Over Platform.

ProjectReady is a comprehensive solution built for the AEC that controls and connects the project ecosystem by integrating, standardizing and syncing information into an integrated data environment. We connect essential tools - **Autodesk, SharePoint, Procore, Microsoft Teams, Outlook and Bluebeam** - into a unified platform, delivering one solution with the breadth and depth of features required to seamlessly manage a project and its ecosystem across phases and stakeholders.

Automate, Integrate, and Manage All Your Project Information

Sync Content Across Platforms
Easily sync content across ACC, Procore & SharePoint.

Automated Setup
Automate the Setup of ACC & its connection to SharePoint, Teams and Outlook, Procore and Box.

Centralized Security and Governance
Centralize & Simplify Security & Governance Management Across the Autodesk Construction Cloud & Microsoft 365

Sync Across Multiple ACC Hubs
Synchronize content across multiple ACC Hubs & Procore Companies (yours or someone else's).

RFI Sync from Procore to ACC
Sync RFIs from Procore to ACC, ensuring project data is consistent & that your team can work in their preferred system.

New Integration for Q1 2025
